

## Children & Maternity Group

Chair: Sharon Morrow, Chief Operating Officer

<p><b>Items to be escalated to the Health &amp; Wellbeing Board</b></p> <p>None</p>
<p><b>Performance</b></p> <p>The HWB indicators were reviewed. Key areas for performance improvement were identified obesity, infant mortality, 12 week booking and immunisation.</p>
<p><b>Meeting Attendance</b></p> <p>60%</p>
<p><b>Action(s) since last report to the Health and Wellbeing Board</b></p> <p>The Sub-Group reviewed a draft HWB paper on Health support in the community for children with additional needs. The Group felt that the paper needed further development to ensure that it reflected wider commissioning for children with special educational needs and disabilities. Further joint work was in development and deferring the plan to enable the outcome of this work to be shared with HWB would demonstrate a much clearer picture of service provision and issues.</p> <p>The Sub-Group reviewed the final report of the Children and Young People's mental health and wellbeing needs assessment report and recommendations. Various comments were received to enable report to be finalised.</p> <p>Members also reviewed the Group's work plan and took stock of progress particularly in the light of performance against the HWB key indicators.</p>
<p><b>Action and Priorities for the coming period</b></p> <p>A Looked After Children's progress report will come to the next meeting along with a report on immunisation and a wider review of maternity indicators and plans to support implementation.</p>
