Statement of Community Involvement Refresh

June 2019
Executive Summary

What is the Statement of Community Involvement?

The Statement of Community Involvement (SCI) is a statutory document that explains how and when we will consult and engage the community in the planning of the local area. This applies to the preparation of the Local Plan and other associated planning policy documents, as well as assessing planning applications and making decisions on new developments in your neighbourhood.

Who is the ‘community’?

Community refers to residents, resident associations, businesses, community and interest groups, neighbourhood planning forums, landowners, developers, neighbouring local planning authorities, government agencies and any other individuals, groups and organisations interested in, and affected by development and use of land in Barking and Dagenham.

Our principles of consultation and engagement

We are committed to continuous and meaningful engagement. Our principles of consultation and engagement focus on being clear about what we are consulting on, how it affects you, and how we will involve you to participate through various consultation methods.

Appendix B: General Consultees......................................................................................................33
1. **Purpose of the Statement of Community Involvement**

1.1 This Statement of Community Involvement (SCI) explains how the council will involve the community in the planning of the local area. This includes the preparation of the Local Plan and other associated planning policy documents\(^1\), as well as assessing planning applications and making decisions on new developments. Through the SCI it will ensure that the planning processes of the council are clearly set out and enable more people to get involved in shaping plans and planning decisions.

1.2 The SCI sets out:

- What the council will consult and engage the community on;
- When the council will consult and engage the community;
- How the council will consult and engage the community; and
- Who within the community the council will consult and engage with.

1.3 In July 2015, the council adopted its SCI. Be First\(^2\), the council’s regeneration company has prepared this 2019 revision as part of the review of the Local Plan. This is an interim document that takes account of a few matters, which relate to:

- Changes to the planning legislation and regulations:
  - Neighbourhood plans
  - Duty-to Co-operate and General Consultees
  - Community Infrastructure Levy (CIL)
  - Equalities Impact Assessment (EIA)
  - General Permitted Development Order
  - Assets of Community Value
- Local changes, including updated details of publications, inclusion of social media as a public engagement tool; and
- Out-dated terminology

1.4 This version of the SCI will be consulted alongside the Local Plan Regulation 19 consultation in autumn 2019. A full review of the SCI will be undertaken to consider any comments received throughout the Regulation 19 consultation following the submission of the Local Plan.

2. **Our Principle**

2.1 The council is committed to continuous and meaningful engagement throughout the development lifecycle and continuous feedback mechanisms in respect of consultation type/size linking to the scale of proposed development; transparency of planning process and decision making.

---

\(^1\) The council publish a Local Development Scheme, which sets out the documents that will be prepared by London Borough of Barking and Dagenham as part of the Development Plan for the borough.

\(^2\) Since the consultation concluded, the Council has established a new regeneration company – Be First, on 1st October 2017. Be First is engaged by the council, to undertake, inter alia, the preparation of planning policy documentation. The Council continues to exercise its statutory duties and powers as a Local Planning Authority (LPA), including the approval of all planning policy documentation.
2.2 Our principles of consultation and engagement are set out below:

- Being clear on what each consultation is about, how it affects you and how you can get involved
- Making it as easy as possible for you to respond to consultations by thinking about what method is best for you, not what is most convenient for the council, for example, public engagement sessions for a planning policy document. All relevant information will be published on the council’s website
- Giving you enough time to respond to both planning applications and planning policy consultation
- Keeping the process as simple as possible and writing in plain English. If technical words are required, we will make sure these are explained

3. Policy and legislative context

3.1 The SCI update has been prepared under the following legislation:

- The Town and Country Planning (Local Planning) (England) Regulations 2012
- Equality Act 2010
- The Localism Act 2011
- The Amendments to the General Permitted Development Order 2015
- The Community Infrastructure Regulations 2010 (as Amended)

3.2 To find out more information about the above legislation, please visit: https://www.planningportal.co.uk

3.3 The government has published a guide “Plain English guide to the planning system”, which provides an explanation of how the planning system in England works. To access the guide, please visit: https://www.gov.uk/government/publications/plain-english-guide-to-the-planning-system

4. The Barking and Dagenham Community

The Barking and Dagenham Community

4.1 Barking and Dagenham has seen rapid population growth since 2001 by 13.4 per cent overall compared to 7 per cent for England according to the 2011 Census. There has been a large increase in the number of younger people (particularly children aged 0-4 years) living in the borough due to high birth rates.

4.2 Barking and Dagenham is an ethnically diverse borough. Of local authorities in England and Wales, the borough had the fifth largest growth in residents born outside the United Kingdom and Ireland between the 2001 and 2011 censuses. This has brought up social
and cultural diversity, for instance, 72 different non-English languages were recorded in the 2011 census as the main language in the household.

4.3 The borough has also experienced a shift in ethnic group proportions with a larger decrease in the White British ethnic group and a large increase in the Black African ethnic group. The White British group are almost 10 per cent lower in Barking and Dagenham than the rest of London, whilst the Black African ethnic group is substantially higher than the rest of London.

4.4 Barking is the home for an extraordinary range of businesses, shops and restaurants. The current trends show that new businesses are growing at a rate substantially faster than both eastern London and London in general, but they tend to be less successful in the long run.

4.5 The council recognises the challenges and opportunities to engage with the planning system due to various reasons such as language barriers, cultural perceptions, traditions or social expectations etc. In order to overcome these barriers, we will continuous to explore interactive ways of involving community, apply more modern consultation tools, select accessible venues and facilities and provide documents in accessible formats on request etc. We also recognise that some individuals, groups and businesses may have a greater capacity to get involved in planning matters than others and so, where appropriate, we will support those who find it difficult to get involved with planning issues.

Specific and General Consultation Bodies

4.6 The council has a legal requirement to make information available to residents and organisations, and it also has a legal duty to consult Specific and General consultation bodies. Moreover, the council is committed to involving existing residents and workers in shaping planning policies. The Duty to Co-operate set out in the Planning and Compulsory Purchase Act 2004 (as Amended) and by the Localism Act 2011 establishes legal principles of co-operation with neighbouring boroughs, the Mayor of London and other authorities, public bodies and agencies when reviewing planning policies. See Appendix A and B for a list of these bodies.

4.7 In addition to Specific and General Consultees, the council maintains a Local Plan consultation database which contains information of individuals, landowners, developers, and businesses that have taken part in past consultations or wish to be involved in future planning policy consultation events. The consultation database is kept under review from time to time.

Monitoring

4.8 Equalities monitoring forms will accompany all planning policy consultations. This will enable us to analyse data collected and identify specific issues relating to any individual groups should this arise.
Consultation methods will reflect the council’s most up to date Participation and Engagement strategy, and will be assessed for effectiveness through ongoing feedback and monitoring.

5. **How we will consult and engage**

**Channels of communication**

5.1 One of the council’s consultation principles is that it will make it as easy as possible for the community to engage with and respond to consultations. Therefore, where appropriate, the council will apply different methods and learn from other good practice (including translation services, short summary documents of the consultation material etc.) to make sure that we engage with as many people and organisations when required in both plan making and assessing planning applications:

**Digital platform**

- **Emails** – Where we have email addresses of consultees, we will email them details regarding planning consultations
- **Social media** - We will use popular social media sites to promote consultation events before, during and after the consultation
- **Surveys and information gathering exercise** via the council’s online consultation portal e.g. Engagement HQ
- **Planning application search facility** – Information of planning applications can be found via the planning search facility on the council’s website
- **Website** – We will keep the relevant webpages up to date, publishing all consultation material, forthcoming consultation events on the council’s Local Plan website and strategic development projects on the council’s regeneration company – Be First’s website.

**Non-digital platform**

- **Consultation letters** – We will post consultation letters to neighbouring and nearby properties to inform regarding nearby development proposals
- **Press notices** – We will post press notices in the local newspaper for key development proposals and Local Plan consultation events
- **Site notices** – We will display notices near and around the development site
- **Public consultation events** – We work with applicants to make sure that appropriate public consultation events are undertaken for major development schemes
- **Make effective use of libraries and other community buildings** - We will continue to ensure libraries are provided with consultation material

---

3 The council is preparing a Participation and Engagement Strategy, anticipated for public consultation in autumn 2019.
• Group meetings – We will engage with communities (particularly, hard-to-reach groups) by attending community meetings where appropriate to discuss what we are consulting on and listen to feedback

• Public exhibitions – We will present the information in accessible locations and show a summary of consultation material which outlines what we are consulting on; the council officers will also listen to feedback from individuals who come to the event.
6. Consultation of Supporting Documents

6.1 The planning policy documents will be mainly supported by several documents listed below. Details about the emerging Local Plan and supplementary planning documents can be found in the latest Local Development Scheme published on the council’s website.

6.2 Figure 1 and 2 illustrate the consultation processes for both the Local Plan and Supplementary Planning Documents. Table 1 and 2 explain how the council will undertake the consultation and engagement at different stages of the process.

Figure 1: Local Plan Process

<table>
<thead>
<tr>
<th>Stage</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stage 1 Preparation of Local Plan (Regulation 18)</td>
<td>This is an options testing phase in drafting. This phase may be repeated a few times as required.</td>
</tr>
<tr>
<td>Stage 2 Publication of proposed Local Plan (Regulation 19)</td>
<td>Consultation on the draft Local Plan Community involvement and participation following the publication of a new or revision to an existing DPD before submission.</td>
</tr>
<tr>
<td>Stage 3 Examination</td>
<td>Submission of proposed or revised DPD and related information to Secretary of State (SoS).</td>
</tr>
<tr>
<td>Stage 4 Adoption</td>
<td>The Local Plan is adopted following the consideration of the recommendations in the Inspector’s report.</td>
</tr>
</tbody>
</table>
Stage 1: Preparing the draft Supplementary Planning Document
Policy officers compile documents and supporting evidence.

Stage 2: Consulting the community on the draft Supplementary Planning Document
A Draft SPD is prepared and published for comment.

Stage 3: Adoption of the SPD
The council considers comments made and makes any necessary changes. The council adopts SPD as a Local Development Document and prepares adoption statement.

Sustainability Appraisal

6.3 As part of the preparation of the Local Plan Review, the council must assess the social, environmental and economic impacts of Local Plan policies. The Sustainability Appraisal needs to be prepared alongside the development of the Local Plan. This is the purpose of a Sustainability Appraisal. To begin with, the council must consult on a draft Scoping Report, but this only involves Natural England, Historic England and the Environment Agency. Its purpose is to make sure the council has identified the right sustainability issues and indicators to assess draft policies and allocations against. When the draft Local Plan is consulted on a Sustainability Appraisal report will be published alongside it.

Equalities Impact Assessment (EIA)

6.4 An Equality Impact Assessment (EIA) is an essential tool that demonstrates whether planning policies have negative impacts on equality target groups and ensures that any adverse impacts identified are appropriately mitigated and where possible equalities are promoted. All Planning documents are subject to an initial EIA screening stage. This screening takes place during the initial stage of development of a policy or strategy and is designed to look at positive and negative/adverse impacts. A Full Impact Assessment is undertaken for all policies, projects and strategies that have identified an adverse/negative impact during the Initial Screening stage. Further information relating to EIA can be found on the council’s website.

Conservation Area Appraisal (CAA)

6.5 CAAs identify the important characteristics of an area as well as provide residents with an idea of what alterations could be made. This document is used as a material consideration in planning application decisions. The preparation of CAAs includes a public consultation where properties within the conservation area are notified of the consultation event by letter, notice or in the local press. Other relevant parties such as Historic England, amenity societies and local area heritage associations and societies will also be consulted on the draft CAA. Comments made during the consultation period will
be considered when finalising the CAA. The council will notify key consultation participants of the adoption of the CAA.

**Article 4 (1) Directions**

6.6 Article 4 (1) Directions can be used by an LPA to remove permitted development (PD) rights. More information can be found in the *Town and Country Planning (General Permitted Development) Order 2015*. PD rights allow certain building works and changes of use to occur without the submission of a planning application.

6.7 Following the creation of a draft Article 4 (1) Direction the council will:
- Publish a notice of direction in the local press
- Display site notices in at least two locations for at least six weeks
- Notify landowners and occupiers of affected properties and land
- Publish a notice of Article 4 (1) Direction on the council’s website
- Sent a copy of Article 4 (1) Direction to the Secretary of State

6.8 The council will accept representations regarding Article 4 (1) Direction for at least 21 days. Once the Secretary of State gives approval the direction is then confirmed. Once Article 4 (1) is confirmed, the council will inform affected land owners and occupiers through local press and websites.

**Tree preservation orders**

6.9 Local Planning Authorities (LPA) issue Tree Preservation Orders (TPOs) to protect specific trees or all trees within a defined area or woodland. A TPO makes the cutting down, topping, lopping, uprooting or wilful damage or destruction of a protected tree without the LPA’s permission a criminal offence. The council will notify the landowner and any affected neighbours by letter about the placement of a provisional TPO. Where it is not possible to identify all landowners or occupiers, the council will post a site notice.

6.10 Landowners have the right to object to the TPOs. The council will consider the objections to see if they can be resolved by making acceptable changes to the TPO. If this is achievable and the objector is satisfied with the changed TPO, the delegated officer will approve confirmation of the TPO. If this is not achievable, the Planning Committee needs to make the decision on whether the TPO should be confirmed (made permanent), within six months of the provisional TPO being made.

6.11 Trees in Conservation Areas that are not protected by a TPOs are protected by section 211 of the Town and Country Planning Act 1990 and the council must be given six weeks’ notice of proposed works. Applications for Tree Works and Notices for works on trees in Conservation Areas can be viewed on the council’s website.
7. Consultation of neighbourhood development plans and Community Infrastructure Levy

Neighbourhood Development Plan / Neighbourhood Development Orders

7.1 The Localism Act 2011 includes statutory policies that enable communities to create a Neighbourhood Plan\(^4\) for their area. Neighbourhood Planning enables communities to shape the development and growth of their local area. Neighbourhood Planning can include the production of a Neighbourhood Plan or a Neighbourhood Development Order (NDO). The Neighbourhood Planning consultation process is illustrated in Figure 3 and the consultation requirements are outlined in Table 3 of this document as well in the Neighbourhood Planning (General) Regulations 2012\(^5\).

Figure 3: Neighbourhood Plan Process

![Neighbourhood Plan Process Diagram](image)

Stage 1: Pre-submission Consultation of Neighbourhood Plan

Stage 2: Publishing the Neighbourhood Plan

Stage 3: Examination of Neighbourhood Plan

Stage 4: Post-Examination

Community Infrastructure Levy (CIL)

7.2 The Community Infrastructure Levy (CIL) is a charge on most types of new developments over a certain size. Figure 4 illustrates the CIL consultation process. The consultation requirements for a CIL charging schedule are set out under the CIL Regulations 2010 (as amended) and are in accordance with the consultation process for the Development Plan Documents (as shown in Table 1 of this document).

---

\(^4\) Communities can prepare Neighbourhood Development Plans, which set out policies for the development and use of the area concerned. Neighbourhood Plans must be consistent with national policies and Development Plans adopted by the Local Planning Authority including the London Plan and Local Plan. Once adopted the Neighbourhood Plan becomes part of the statutory development plan and will be used in determining planning applications in the area. Neighbourhood Development Orders grant planning permission without the need to submit a planning application.

\(^5\) Neighbourhood Planning (General) Regulations: [http://www.legislation.gov.uk/uksi/2012/637/contents/made]
7.3 The CIL money collected should be spent on infrastructure to support growth in the borough. There are opportunities for community groups to bid for Neighbourhood CIL funding (NCIL) to fund local neighbourhood schemes, such as community projects and environmental improvements, with projects being assessed against the themes of the Borough Manifesto. This version of the SCI does not include the consultation approach to NCIL. For details of how to apply for the NCIL, please contact: community@lbld.gov.uk.

Figure 4: Community Infrastructure Levy Process

- **Stage 1: Preliminary Draft Charging Schedule (PDCS)**
  Preliminary Draft Charging Schedule published with a minimum 6 week period of consultation.

- **Stage 2: Consultation on Draft Charging Schedule (DCS)**
  Draft Charging Schedule published with a minimum 6 week period of consultation.

- **Stage 3: Examination**
  The council considers comments made on the draft Charging Schedule and makes any necessary changes. The council submits to the Secretary of State. A Planning Inspector is appointed. The Charging Schedule is examined by the planning inspector at public examination.

- **Stage 4: Adoption**
  The council adopts the Charging Schedule and prepares adoption statement.

<table>
<thead>
<tr>
<th>Key Stages</th>
<th>What we will consult on</th>
<th>How we will inform you</th>
<th>The Neighbourhood Planning (2012) Regulatory Requirements</th>
</tr>
</thead>
</table>
| Stage 1: Pre-submission Consultation\(^8\) | We will consult on the Neighbourhood Development Plan/Local Development Orders and all supporting documents including evidence base studies. | The council will assist a designated Neighbourhood Forum to arrange for a formal consultation on the proposed document prior to submission. All the detailed information of the consultation will be published on the council’s website. | Pre-submission consultation and publicity (Regulation 14) Prior to submitting a plan proposal to an LPA, a qualifying body must:  
- Publicise the plan and bring it to the attention of the people who live, work or carry on business in the neighbourhood area.  
- Provide details regarding:  
  - the proposals for an NDP  
  - where and when the proposals for an NDP may be inspected  
  - how to make representations  
  - the date by which representations must be received, not being less than 6 weeks from the date in which the draft proposal was first published |

\(^8\) Following consultation, the Neighbourhood Forum must assess and take into consideration all comments received and make changes to the document if necessary. The Neighbourhood Forum will then use its findings to create a document called the ‘Consultation Statement’. The document can then be finalised and submitted to the council.

Plan proposals (Regulation 15)  
When submitting a plan proposal to the LPA the qualifying body must include:  
• A map or statement that identifies the areas to which the proposed NDP relates;  
• A consultation statement;  
• The proposed NDP; and  
• A statement explaining how the proposed NDP meets the requirements of paragraph 8 of Schedule 4B to the 1990 Act

Publicising a plan proposal (Regulation 16)  
After receiving an NDP proposal, the LPA must:  
• Publicise the plan proposal on their website  
• Provide details about the plan proposal

| Stage 3: Examination | N/A                     | The council will arrange for an independent examination of the document and notify those who are interested in the proposed plan of the examination process. An independent examiner will review the proposed plan, additional documents and representations made by consultees. | Submission of plan proposal to examination (Regulation 17)  
As soon as a person to carry out the examination is appointed, the LPA must send the following to the examiner:  
- the plan proposal  
- the documents referred to in regulation 15 and all other documents submitted to the LPA by the qualifying body regarding the plan proposal  
- if the Conservation of Habitats and Species Regulations 2010 |

- Provide details of where and when the plan proposal may be inspected  
- Provide details how to make representations  
- Issue a statement that any representations may include a request to be notified of the LPA’s decision in relation to the NDP; and  
- the date by which representations must be received, not being less than 6 weeks from the date in which the draft proposal was first published.

8. Development Management

What is development management?

8.1 Development Management is the implementation of plans, policies and legislation to achieve sustainable development. This incorporates the process and determination of planning applications.

8.2 The council is responsible for determining all the planning applications made in the borough. Obtaining feedback from those affected by the development proposal is regarded as an important part of the process of deciding whether to approve or refuse a planning application. In the case of a residential extension this can be a neighbour, and for larger developments, this can be people who live further away.

8.3 One of the council’s consultation principles is that it will make it as easy as possible for the community to respond to planning notifications. Therefore, the council will use the following methods to make sure the community and other interested parties can respond to planning applications:

- We will continue to put all planning applications and supporting information on the council’s website and encourage people to respond online
- We will continue to seek electronic submission of all applications, to improve the quality of online submissions
- In nearly all circumstances where there is a planning application next to your property, we will write to you to ask for your comments
- Where necessary we will put up site notices to make sure that people are aware of major and strategic applications in their neighbourhood
- Where required we will put newspaper notices up to make sure that people are aware of certain applications
- As well as making planning applications available online members of the public will be able to view them at Be First, 9th Floor, Maritime House, 1 Linton Road, Barking IG11 8HG if they make an appointment.

Stages of Development Chart

i) Pre-application Stage

8.4 Pre-Application Consultation

Although not a legal requirement, developers are strongly encouraged to arrange for some form of engagement with residents, local stakeholders and relevant statutory bodies during the pre-application stage. During this stage, various consultations methods can be utilised depending on the size of the scheme. For example, for larger schemes, drop-in events with the local community generally should take place whereas for smaller schemes leaflets can be distributed. In addition, residents and local stakeholders can also discuss their concerns with local councillors. Early community involvement can help improve the efficiency and effectiveness of the planning application once submitted because local concerns can be resolved earlier on.
Pre-Application Advice

8.5 The council also encourages developers to discuss their development proposals with planning officers during the pre-application stage. There is a schedule of charges for pre-application guidance on Be First’s website. Fees are generally set depending on the size and type of development.

ii) Application Stage

8.6 In the application stage, the council organises a formal notification where residents can make comments on the submitted planning application. During this stage comments made by residents and local stakeholders will be taken into consideration and help inform the planning decision. Therefore, residents and local stakeholders are encouraged to read proposal documents and submit specific comments regarding whether the development should be approved.

8.7 Table 4 shows how the council will publicise different types of planning applications. Many of these are requirements set by law. The Statutory Period for consultation on planning applications is 21 days. This is clearly stated on all advertisements, site notices, and notification letters.

8.8 The easiest way to comment on a planning application is through the council’s website. Alternatively, you can submit your comments by email or failing that in writing to Planning Service via email: planning@befirst.london or postal address: 9th Floor, Maritime House, 1 Linton Road, Barking IG11 8HG.

iii) Decision Making Stage

8.9 Around 95% of planning applications are decided by officers. The remaining 5% of planning applications are decided at the council’s planning committee. This includes any planning applications recommended for approval where five or more people have objected to in writing. If you object to a planning application which goes to the Planning Committee for a decision, the council will send you the details of how to register to speak at the council’s Planning Committee if you wish.

8.10 The council has also held monthly’s briefing sessions, including officer and developer presentations. These sessions seek to inform the Planning Committee and relevant Ward Members about planning applications which are likely to be determined at a future Planning Committee. Developers can get views from members early on, however, no pre-determination of planning applications prior to the Planning Committee and that all councillors must declare any interests.

8.11 Once the council has decided whether to approve or refuse a planning application under delegated authority it confirms this by publishing a decision notice on the council’s website.

8.12 Where the council has refused planning permission an applicant has the right to appeal the decision. Where an appeal is lodged an inspector from the Planning Inspectorate is appointed. If you have objected to a planning application that is subsequently appealed

9 https://www.lbld.gov.uk/search-for-or-comment-on-a-planning-application
against, the council will write to you via email or letter to explain the next steps. In some circumstances, the Inspector will instruct the council to begin a consultation with the public at the appeal stage. At this point, the Inspector will consider these comments alongside any comments which were submitted at the planning application stage.

8.13 Planning Aid for London is a registered charity, which can provide free and independent town planning related advice to individuals and groups unable to afford professional consultants. Planning Aid can assist people with their own planning applications or can help them to comment on planning applications or planning policy consultation documents. It can also advise groups on fundraising strategies, community development and consultation methods.
