

HEALTH AND WELLBEING BOARD

10 September 2019

Title:	Presentation on North East London Long Term Plan (NEL LTP) response to NHS LTP		
Report of Director of Transformation, East London Health and Care Partnership			
Open Report		For Decision	
Wards Affected: ALL		Key Decision: No	
Report Authors: Simon Hall, Director of Transformation, East London Health and Care Partnership		Contact Details:	
Sponsor: Ceri Jacob, Managing Director, BHR CCGs			
Summary: <p>The East London Health and Care Partnership is developing a response to the NHS Long-Term Plan setting out how partners (CCGs, providers, local authorities) will work together to provide high quality care and better health outcomes for patients and their families, through every stage of life. The document is a strategy for the next five years, which sets out how we will make the ambitions of the Long Term Plan a reality for the communities we serve.</p> <p>We are continuing engagement with Health and Wellbeing Boards where opportunity for feedback and comments will be incorporated as we progress. Once submitted NHSE/I will respond and feedback on this draft version allowing us to further amend and update prior to final submission on the 15 November 2019.</p>			
Recommendations The Health and Wellbeing Board is asked to:			
<ol style="list-style-type: none"> 1. Note the presentation on North East London Long Term Plan (NEL LTP) response and the timelines, and 2. Provide any feedback and comments on the NEL LTP response to the NHS LTP. 			
Reasons <p>The National Long-Term Plan was released in early 2019. It sets out how to make the NHS fit for the future.</p> <p>By giving everyone the best start in life through better maternity services, including a dedicated midwife looking after a mother throughout her pregnancy, by joining up services from birth through to age 25, particularly improving care for children with long term conditions like asthma, epilepsy and diabetes and revolutionizing how the NHS cares for children and young people with poor mental health with more services in schools and colleges.</p> <p>By delivering world-class care for major health problems to help people live well with faster and better diagnosis, treatment and care for the most common killers, including cancer, heart disease, stroke and lung disease, achieving survival rates that are among the best in the world, supporting families and individuals with mental health problems, making it easier to access talking therapies and transforming how the NHS responds to people experiencing a mental health crisis.</p>			

By helping people age well with fast and appropriate care in the community, including in care homes, to prevent avoidable hospital admissions for frail and older people, and by significantly increasing the numbers of people who can take control of their healthcare through personal budgets.
