<b>Accountable Director:</b> Matthew Cole, Director of Public Health	
<b>Accountable Strategic Leadership Director:</b> Elaine Allegretti, Director of People and Resilience	
<b>Summary</b> <p>The Health and Wellbeing Outcomes Framework has been revised to align with the Barking and Dagenham Joint Health and Wellbeing Strategy (JHWS) 2019-2023 as proposed to the Board in September 2019.</p> <p>The new Outcomes Framework draws on the three priority themes, seven key health and wellbeing outcomes and thirty-one measures presented in the JHWS, as well as the measures presented in the tri-borough Joint Strategic Needs Assessment 2020.</p> <p>From these a shortlist of measures has been selected, which will assist the Health and Wellbeing Board in monitoring progress towards the vision of <i>Improving Health and Wellbeing, Reducing Inequalities and Increasing Resilience with no-one being left behind.</i></p> <p>This shortlist of measures which is being presented to the Board for review and approval so that the reporting of the measures can begin in Quarter 1 of the new reporting year (2020-21).</p>	
<b>Recommendation(s)</b> <p>The Health and Wellbeing Board is recommended to:</p> <ul style="list-style-type: none"><li>• Review and provide feedback on the proposed Outcomes Framework and supporting measures</li><li>• Highlight any gaps in the proposed set of measures; whilst this framework is intended to provide a compact list of overarching measures it is important that it reflects and represents the wide remit of the Health and Wellbeing Board</li><li>• Agree the proposal for all parties to contribute to the ongoing production of the new framework, and</li><li>• Agree the frequency of reporting</li></ul>	

**Reason**

The measures selected to support the JHWS must represent the wide remit of the Health and Wellbeing Board. It is therefore important that Board members use this opportunity to review the Outcomes Framework and ensure the measures meet this requirement.

The data for the measures will come from an equally wide range of sources. It is therefore essential that all parties represented by the Board agree to support the delivery of the Framework through the routine provision of data and commentary for the measures in line with the agreed timeline.
