

North East London

Faircross Health Centre

Practice Graded as 'Inadequate' by CQC and Placed into Special Measures.

Barking & Dagenham

- Practice inspected by CQC between 19-22 April 2022.
- Significant issues found that made the services unsafe.
- CQC served a 'Notice of Intent' on 27 April 2022 requiring the practice to make urgent remediation or cancellation of registration would be considered.
- Primary Care tasked Infection Control and Medicines Management Teams to review and support the practice.
- Practice submitted its action plan to CQC and NEL Contracts Team; they have provided updates and evidence to both organisations as they remediate.
- Report on the findings of the April 2022 inspection published on 31 August 2022; this report does not reflect any remedial actions and/or improvements made.
- Following the publication of the report, contractual action of the issuing of a remedial notice is in progress.
- Final improvements and action plan declarations will be verified by the CQC follow up inspection, which is yet to be confirmed.
