Hi Fola

Thankyou for your response.

Apologies I had incorrectly identified the premises and assumed it was the Stone Glow Candles building as indicated on the application and Google maps and the correct distance is approx. 230m.

However, the point remains the same and the correct process must be followed. You have applied for regulated entertainment until 5am with insufficient details of how the Licensing Act 2003 public nuisance or public safety objectives will be upheld. In order for this department to withdraw its representation you will need to provide sufficient information to demonstrate how noise will be controlled and I have indicated within my previous response how you may obtain further advice. If you can provide me with a noise assessment and noise management plan we can review this information.

Kind Regards

Chris Hurst | Contract Environmental Protection Officer

Subject: PREMISES License application Selinas Lane

Dear Chris,

Thank you for your thorough evaluation. We appreciate the considerations regarding noise impact. It's important to note that our venue is situated 250 meters away, not 80 meters as mentioned, from the street, which is a substantial distance that significantly minimizes the likelihood of noise disturbance to nearby residents. See the satellite view showing the our venue and the mentoned street

Your insights are valuable, and we're committed to ensuring a positive coexistence with the community. For late events we plan to have security controlling traffic parking and noise levels. Thank you for your understanding and consideration."

Kind Regard

Fola
