**My Comments:**

We have given space both sides for the access using wheel chair and for pedestrians. As you can see clearly in the photos.

We have also gone forward same as the next-door shop as you can see in the photos attached. Bellow, Again, if you think we have Couse problems to the community, I am happy to remove the decking, we just wanted to make look good. Again, its very small space, hardly can fit 2 tables with few chairs.

The boundary block wall is about 1.6 to 1.8 m some places, the wall is weak.

To Support the wall, we have put timber posts inside our garden next to the boundary wall to support the wall and also for the security of our garden, so we went bit higher than existing wall so people can't clump into our garden.

Bellow its clear photo attached.
