Skills and Employment Section

Recommendation 91

The Work Programme is being replaced with the Work and Health Programme. Ensuring that health care and employment support are integrated will be essential and the Council should play a facilitative role in bringing employers, health care professionals and employment service providers together to focus on supporting people into work.

Recommendation 97

The Council should work with health care providers and social economy organisations to identify where peer support schemes be put in place beyond those that already exist in the Borough.
