

Community Solutions: helping people to help themselves

Community Safety Partnership

Community Solutions

What is Community Solutions?

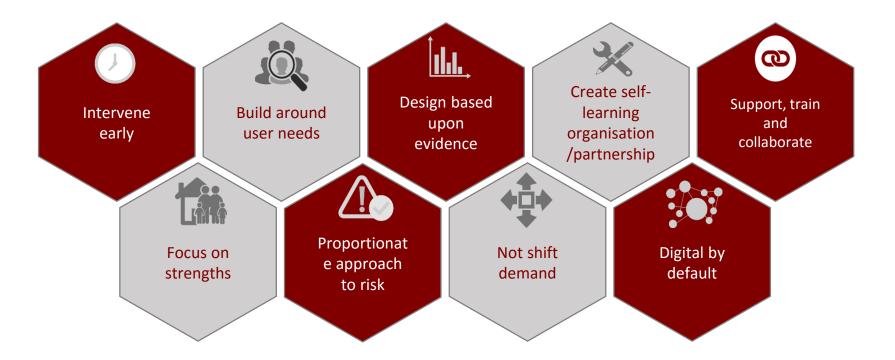

What is Community Solutions?

Barking & Dagenham wants to help its residents to become as independent as possible. Community Solutions is a new service with exactly that goal.

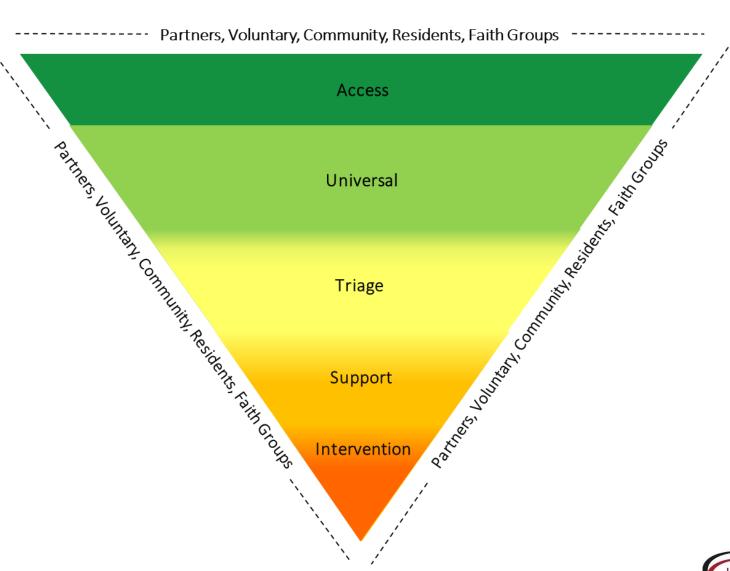

To develop the service we will:

Lifecycle approach

With agreed processes and handoff protocols

What difference will Community Solutions make?

Better outcomes for residents

Reduce demand into acute services – more upstream intervention

Visible, digital council by default

Empowered and efficient staff – appropriately skilled

Engaged communities and voluntary sector

Increase in self service

Savings delivered

How will it work?

- 1 A digital enabler
- 2 Plans based on where we are now
- Built around the resident or household
- People make a difference
- 5 Focused on outcomes

Data and insight underpins everything

ComSol Leadership

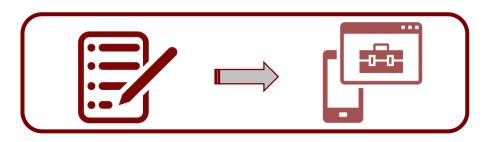

- Horizon scanning to spot tends & issues
- Making links across the Council and beyond
- Listening to people who use services to focus on what matters

Service Development Team

 Feed operational staff data and insight so they can make informed decisions

Working with others to share data

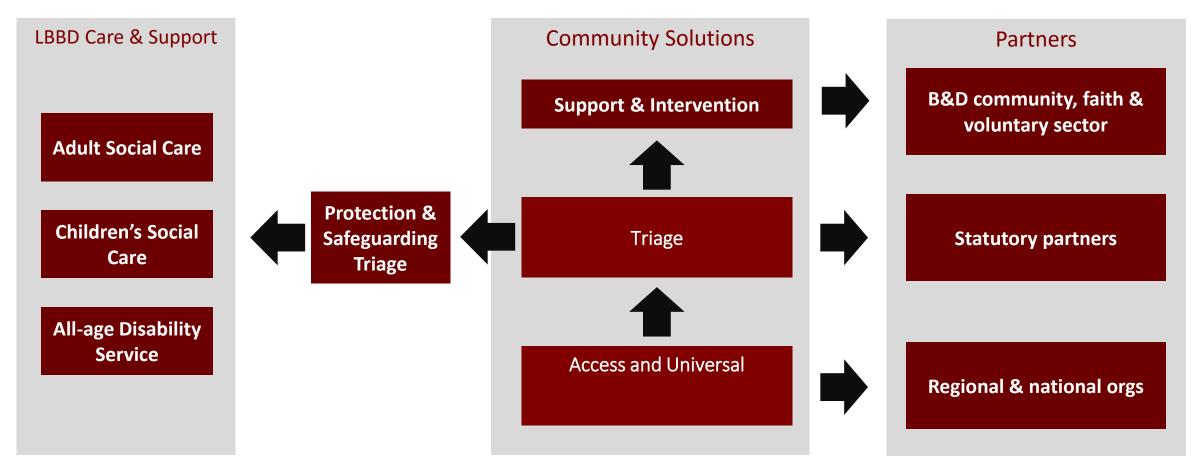

Define:

- Data sets
- Systems
- Assess processes
- Protocols for safe and appropriate data sharing

How Community Solutions with work with others

Community Solutions will only succeed if strong partnerships are built within and beyond the Council.

Community Solutions service design and build will be based on the following stages

1 TRANSFER AND CONSOLIDATE

2 PREPARATION (April-October 2017)

3A TRANSFORMATION (October 2017-March 2018) 3B OPERATION (April 2018-March 2019)

4 OPTIMISE (April 2019-2021/22

ComSol is 'switched on.'

- ComSol cutover checklist
- ComSol go-live
- Team manager network group
- Cross service workshops

Behaviour change & basic IT.

- Implement web/ mobile quick wins
- Training & behaviour change
- Hub and satellite redesign (1)
- Commissioning
- Reformat MAP

Lifecycle structures exist.

- Hub and satellite redesign(2)
- SPA co-located
- Multi-tenure Anti-Social & Behaviour
- Adults/ Children's Temporary Accommodation

Lifecycles multi-skilled.

- SPA consolidated
- Safeguarding & triage in SPA
- Support & intervention consolidated
- Single care plan

Benefits

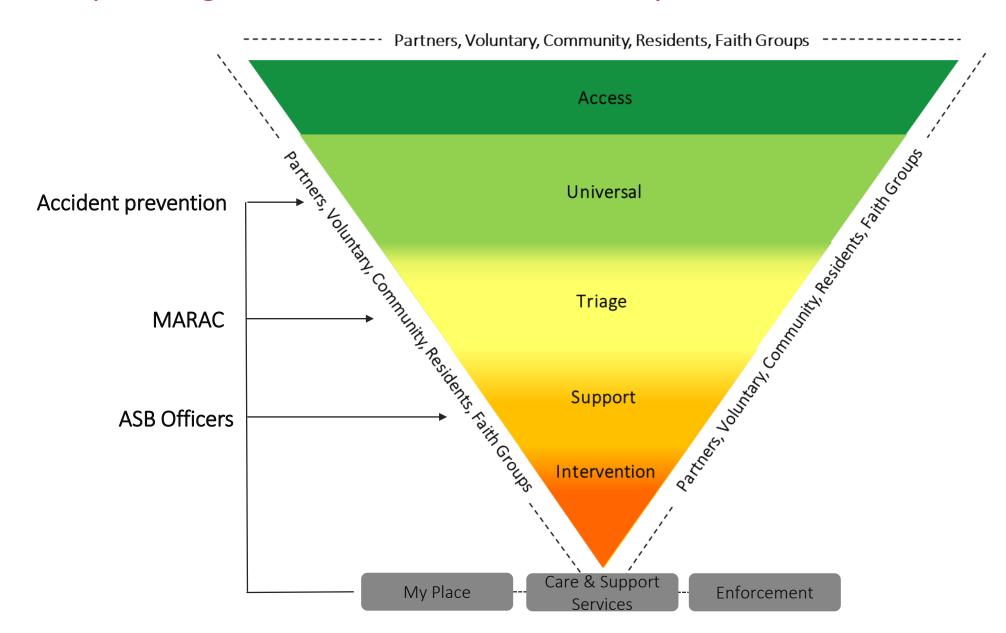

- Community/ Voluntary sector optimised as extension of workforce
- Cross-partner/ agency workflow

Community Solutions – Community Safety & ASB focus

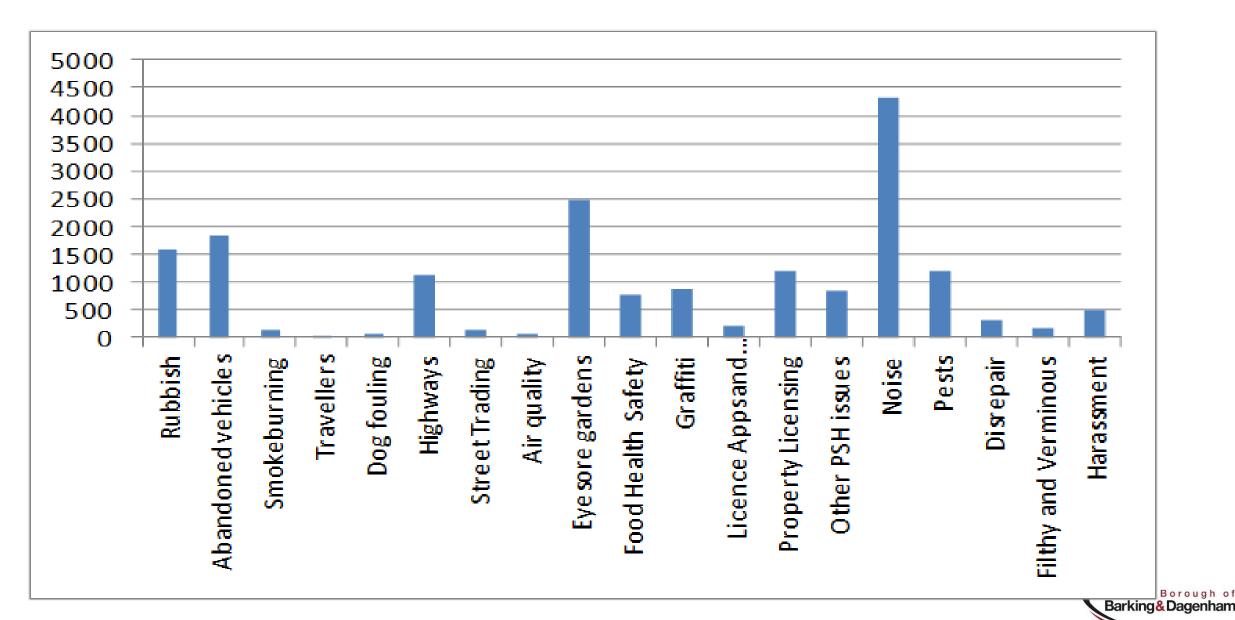

The operating model will reflect these lifecycles

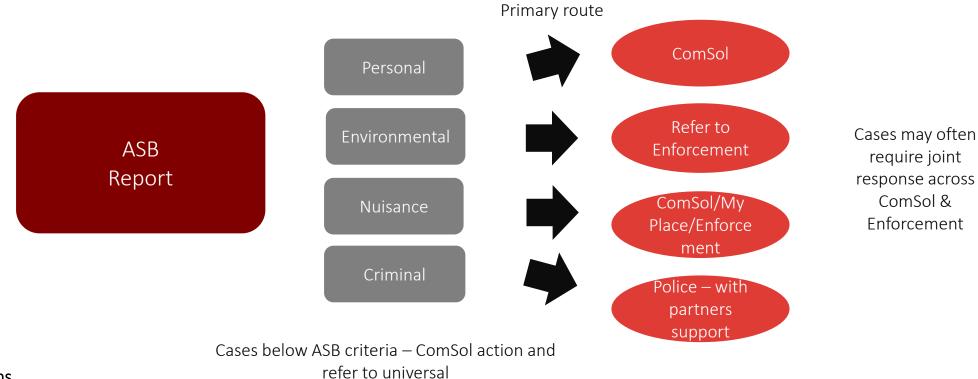

ASB – cases relevant to ComSol / Enforcement / My Place (2016)

lbbd.gov.uk

ASB cases are allocated using the following approach

Key Observations

What constitutes
ASB is broad.
Multi-agency
case conferences
vehicle for
shared approach

Environmental
issues –
enforcement
(environment /
noise team) in
first place

Professional judgement alongside need & risk assessment inform allocation

SLAs and clear policy statement to be developed for ASB Prevention and non-enforcement resolution first aim & exhaust

ComSol responsibility for victim ongoing support

London Borough of Barking&Dagenham

Handovers – key points

- Updated protocol in place between ComSol, My Place and Enforcement
- ComSol acts as the 'front door' for ASB cases providing the initial triage of cases and routing to appropriate service
- PEN approach will be used as business as usual through to October 2017
- Multi-service case discussion (or panel meeting) to determine who does what and when on all cases where a joint response to reported issues may be appropriate
- The officer who picks up the initial report / customer (whether in My Place, ComSol or Enforcement) is responsible for initiating the multi-service discussion
- ASB Coordinator post will be placed in Enforcement and is responsible for Estate Police team tasking and ensuring smooth handovers across services

Quick win opportunities and actions (April to October 17)

	ITEM	DESCRIPTION
(1)	Open up access to IT systems	Enable ASB officers to have access to appropriate systems on rule based permissions
2	Enable online ASB reporting	Build new ASB eform and put online. Increase online reporting. Begin channel shift.
3	Trial self-diagnose	Trial a 'lite' online reporting and risk tool to enable residents to self-assess and determine what type of action may follow and to guide provision of IAG. Uses 'lite' version of existing risk tools
4	Protocol and SLA	Review protocol and establish SLA Establish formal SLA with enforcement and My Place to include specific timescales and definitions on treatment of cases. Review to be informed by item 5 below.
5	Review of PEN approach	PEN approach to triage / initial assessment to be reviewed post April – retained as business as usual for April
6	Deep dive case review	Deep dive case review of complex and high volume cases across ASB and enforcement to evidence base handoff triggers to inform protocol for April 18
7	Insight	Establish priorities for insight hub to assist targeted prevention and resource allocation i.e. DV, high risk cases, repeats. Informed by item 6 above
8	Perpetrator support	Work with commissioners to explore commissioning or provision of dedicated support for perpetrators to reduce prevalence of repeat and escalating behaviours
9	Tenure blind service	Integrate community safety and housing ASB within new ComSol model. Include ASB presence in SPA to enable early triage and resolution plus cross-skilling. Enable greater capacity cross borough. Common screening / triage at earliest point

A range of actions and sanctions can be used to deal with ASB – summarised below and ranging from informal action through to legal enforcement action

ITEM	DESCRIPTION
Self-resolution	Encourage and promote parties to work together to resolve issues amicably and without need for further action
Simple resolution	May include signposting to appropriate agencies / sources of advice and support such as victim support or early intervention services provided in our open access children centres
Mediation	Provide mediation where this is deemed acceptable and agreed to by parties. Uses in-house accredited mediators to prevent future problems, providing support to help people resolve their differences
Restorative solutions	Interventions aimed to address person / family behaviours e.g. family intervention, change behaviour, positive action, referrals to other agencies for specific targeted intervention e.g. mental health
Warnings	Written and verbal warnings of further action if behaviour does not improve
Acceptable Behaviour Contracts	An agreement between the perpetrator and us to stop the behaviour
Parental Contracts	An agreement between the parent and us to promise parental control over their child's behaviour
Good Neighbourhood Contracts	An agreement between the perpetrator and neighbour to stop the antisocial behaviour
Fixed Penalty Notices	Issued for a variety of offences that are deemed ASB – predominantly classified under environment enforcement
ASB Injunctions	Aa legal order which demands that the perpetrator stops acting antisocially
Action Against Tenancy	In the most serious cases we may work with the perpetrator's landlord to take tenancy action against the perpetrator/s, which could result in eviction
Police / Legal	Police action will be taken where the instance is considered to be criminal and against the law such as murder, theft, violence
