The vision behind our integrated care journey

“To accelerate improved health and wellbeing outcomes for the people of Barking & Dagenham, Havering and Redbridge and deliver sustainable provision of high quality health and wellbeing services”.

✓ Priorities of the three borough Health & Wellbeing Strategies
✓ Close the sustainability gap in services in health and care
✓ Deliver the priorities for local people set out in the Sustainability & Transformation Plan for North East London
Strongly grounded in a locality model, responsive to local needs but sharing some operating principles across the BHR patch.
BHR Locality Model Vision

**Locality delivery model**
- Triage access to primary care; upskill reception staff
- New agile workforce model
- Managing demand: New referral pathways to acute experienced GP & A&E triage rotation; Consultant advice; Telehealth
- Urgent and emergency care attendances will be re-directed back into the locality model where appropriate
- Planned care will be supported for early discharge enabling shorter length of stay in hospitals

**Community services**
- Mental Health
- Care navigation
- Care coordination
- CAMHS
- MASH Multi Agency Safeguarding Hub
- Children's Centres
- Public Health messages and training
  Need to align with demographic changes

**Hospitals**
- Goodmayes hospital
- Queen's Hospital
- King George Hospital
- Hospital clinicians spend more time in the locality and outside of the hospital

**Locality model**
- A geographically aligned community of care with a minimum population of 50,000 supported by a network of 8-15 GP practices
- Population segmentation:
  - Children
  - Chronic elderly

**Services provided by Community Hubs:**
- GP / community nursing walk-in clinics
- Health and wellbeing programmes
- Employment support
- Housing support
- Healthy living prevention activities
- Welfare and housing support
- Work and skills support

**Contributors to the design of the locality model:**
- GPs
- Local authority members
- Voluntary sector
- Clinicians (NELFT and BHRUT)
- The public

We have spoken with almost 8,000 people who work in health and care, or live, in Barking and Dagenham, Havering and Redbridge; the outputs of these conversations and surveys have fed into the development of the locality model.

- Clinical and professional local leadership in the locality model
- Wide engagement: a developing network of contributors to development of the health and care model
Integrated Care System Governance, including NHS Financial Recovery

- East London Health & Care Partnership (ELHCP)
- Integrated Care Programme Board
  - BHR Health & Care Cabinet
  - Joint Commissioning Board
  - Provider Alliance
- Local Partner Governance Systems As Needed (See Section 2 of this document)
- Transformation Boards
- NHS System Oversight Group (NHSE/I)
- NHS Recovery Board (NRB)
- Joint NHS Programme Management Office (PMO)
