Summary: The Health and Wellbeing Board seeks to be representative of the health and social care sector. Reimagining Adult Social Care Network, part of the B&D Collective, has requested to join the Board. The Chair supports their request as this would increase the involvement of the social care sector in the review and decision-making process. Elspeth Paisley, from Community Resources, has been nominated to represent the B&D Collective. As the meeting of the 12 January 2022 will be an informal meeting, the Board will not be able to formally approve Ms Paisley's appointment. However, the Board can request that the Assembly amend the Board's membership at their next meeting which takes place on 26 January.	
Recommendation(s) The Health and Wellbeing Board is recommended to agree: 1. That the Chair submit a report to the Assembly that a representative from the B&D Collective be added to the membership of the Health and Wellbeing Board.	
Reason(s) The inclusion of B&D Collective will widen the Council's engagement with stakeholders.
