Appendix B

Investment Classification

The classification of investments as specified and non-specified is constantly reviewed. The Chief Financial Officer ensures that investment products are fully understood and the risks and compliance with CIPFA Code of Practice on Treasury Management is full appraised and understood.

Specified Investments:

All investments which fall under the classification of specified investments will be sterling denominated and have maturities up to maximum of 364 days, meeting the Council's minimum 'high' rating criteria at the time of investment.

^{*}Collective Investment Schemes (CIS) which meet the requirements of SI 2004 No 534 and subsequent amendments. Not all CIS are credit-rated. The investments in CIS are highly diversified.

Non-Specified Investments:

Where investments are held for longer than 365 days they are classified as Non-specified Investments. Strong credit quality is a major factor in the choice of borrower.

A maximum of 40% will be held in aggregate in non-specified investments
