Community Safety & Public Protection Services / Crime and Enforcement Portfolio

Total Notifiable Offences (TNO’s)

**Definition**
Total Notifiable Offences counts the total of all incidents reported to / discovered by the police and recorded as a crime.

**How this indicator works**

**What good looks like**
We are looking for a decrease in this figure, and would normally compare with the same period in the previous year, as crime is (broadly) seasonal.

**2014/15 Target:** Reduction on last years figures

**History with this indicator**

**Any issues to consider**
Proactive policing operations and campaigns that encourage reporting can lead to increases without necessarily an underlying increase in the prevalence of crime.

**Performance Overview**
Overall there has been no change in crime levels at September 2014 when compared to the same period in 2013 (down 23 offences reported but 0% change. The MET average performance is -2%)

**RAG Rating: G**

**Benchmarking**
For total crime Barking and Dagenham is currently ranked 21 out of the 32 CSP areas across the Metropolitan Police Force and just above the MET average (82.10 crimes per 1,000 residents). B&D on average has a rate of 82.53 crimes per 1,000 residents. Our position within our Most Similar Group (MSG) is now 8 of 15. We are now closer to the MSG average which is 80.39 per 1,000 residents.

**Actions to Sustain or Improve Performance**
No remedial action required
## Community Safety & Public Protection Services / Crime and Enforcement Portfolio
### MOPAC 7: Violence with injury

**Definition**
Violence with Injury includes the following offences: Attempted murder, intentional destruction of a viable unborn child, causing death or serious injury by dangerous driving, causing death by careless driving under the influence of drink or drugs, cause or allow death or serious physical harm to child or vulnerable person, causing death by careless or inconsiderate driving, causing death by driving; unlicensed, disqualified or uninsured drivers, assault with intent to cause serious harm, endangering life, assault with Injury, Racially or religiously aggravated assault with injury, causing death by aggravated vehicle taking.

**How this indicator works**

Overall count or the offences listed opposite.

**What good looks like**
We are looking for a decrease in this figure, and would normally compare with the same period in the previous year, as crime is (broadly) seasonal.

**Why this indicator is important**
Violent crime is a priority crime identified by the 2013 Crime and Disorder Strategic Assessment. It is a MOPAC 7 priority crime type.

**History with this indicator**
- 2013/14 = 1,693 (+6%)
- 2012/13 = 1,600 (+16%)
- 2011/12 = 1,897 (-5%)

**Any issues to consider**
Interpretation of what an injury is: Injury now includes pain regardless of whether it is visible or lasting pain this will now be recorded as ABH - thus putting it in VWI. This is a change in MPS Interpretation regarding crime classification.

</tbody>
</table>

**RAG Rating: R**
Recorded violence with injury crime has continued to increase YTD at September 2014 there were 169 more violence with injury crimes reported compared to September 2013 (up 21%). In comparison the average across the MET is up 23%.

**Actions to Sustain or Improve Performance**
The rise in Domestic Violence offences is impacting on the Violence with Injury figures. MOPAC 7 group have tasked a piece of analysis on this area separating out VWI offences those taking place in public spaces and those that are taking place in non public spaces. Analysis is currently being undertaken and results will help to inform partnership responses.

**Benchmarking**
We are currently ranked 28 out of 32 CSP across the Metropolitan Police Force with 9.58 crimes per 1,000 residents compared to the Metropolitan Police force average of 7.75 per 1,000 residents. Our positioning amongst our Most Similar Group (MSG) is 11of 15 or 4th highest and therefore above the MSG average of 8.78 per 1,000 residents.

**Community Safety & Public Protection Services / Crime and Enforcement Portfolio**

**Domestic Violence**

**Definition**
Any incident of threatening behaviour, violence, or abuse (psychological, physical, sexual, financial or emotional) between adults who are or have been intimate partners or family, regardless of gender.

**How this indicator works**
Simple monthly and YTD count of offences reported. Rate per 1,000 residents is used to compare against other areas. For the rate per 1,000 population we use rolling 12 month figures against the 2011 Census figure for all individuals residing in the borough (187,029). This is consistent with Iquant.

**What good looks like**
For monitoring, DV is likely to be an under reported crime. An increase in offences could show that more people recognise domestic abuse as a crime and report it rather than the situation getting worse.

**Why this indicator is important**
DV was a Community Safety Partnership priority for 2012/13

**2014/15 Target:**
Generally an increase in crimes reported is considered a good thing. If crimes reported is going down it should prompt services to ask ‘what are we not doing?’

**History of this indicator**
- **2013/14:** 1,991 Offences, 10.65 crimes per 1,000 residents
- **2012/13:** 1,588 Offences, 8.49 crimes per 1,000 residents
- **2011/12:** 1,706 Offences
- **2010/11:** 1,790 Offences

**Any issues to consider**
Potential under reporting of crimes to the Police. Since Summer 13 the age of the victim changed so that offences involving 17 year olds within the family or in relationships were included within the figures.

</tbody>
</table>

**Performance Overview**
- There were 30 more crimes of DV reported in September 2014 compared to September 2013 (+18%).
- Using YTD totals there was an increase of 230 crimes reported between April 2014 to September 2013 compared to April 2013 to September 2013 (1184 vs 954 or +24.1%).

**Actions to Sustain or Improve Performance**
- Partnership responses include:
  - Operation Dauntless which is an MPS wide response to improving performance in this area
  - Improved our emergency response times to Domestic Abuse Calls
  - Positive action regarding suspects who are at the scene or have recently left the scene is being monitored as there is a correlation between successful detection against time to arrest
  - We are piloting a new Crime Advisor (Detective Sergeant) working within a Emergency Response Patrol Team 24/7
  - IDVA Support ensuring victims are supported through court process (victim attrition long standing issue in B+D)
  - As of 1/4 we are able to use restorative approach for youth VWI where appropriate. Each team is being enhanced with a rolling programme of attachments for ERPT officers being attached to the Community Safety Unit for a month a time, with the ambition to expose all officers to seeing enhanced victim care and investigative process.
  - Children’s services have appointed a DV coordinator.
  - A young person’s IDVAS and a children’s IDVAS posts are now in place as part of the IDVAS contract

**Benchmarking**
% Change compared to same time in the previous year (YTD at Sep 14 vs YTD at Sep 13): B&D = Up by 24.1% London average = up by 19.4%.

*Rate per 1,000 Residents (rolling 12 months): B&D = 13.29, Metropolitan Police Average = 8.28, this places B&D 32 / 32 or the highest in London.

Youth Offending Service Chief Officers Group
Serious Youth Violence (Barking & Dagenham)

September 2014

Serious Youth Violence (Barking & Dagenham)

Serious Youth Violence is defined by the MPS as 'Any offence of most serious violence or weapon enabled crime, where the victim is aged 1-19.'

How this indicator works
We use the following formula using the latest rolling 12 month figures and the 2011 Census figure for individuals aged 1-19 in the borough (55,021).

What good looks like
We are looking for a decrease in this figure, and would normally compare with the same period in the previous year, as crime is (broadly) seasonal.

Why this indicator is important
Serious Youth Violence (SYV) is a CSP priority. The 2011 Strategic Assessment showed that it constitutes the next most significant element of the violence that occurs, after Domestic Violence. Analysis of robberies shows that it is part of a growing pattern of gang-related violence.

2014/15 Target:
Reduction on last years figures

History with this indicator
2013/14: 176 offences (+21%), 2.73 crimes per 1,000 residents
2012/13: 145 offences, (-40%), 2.64 crimes per 1,000 residents
2011/12: 236 offences (+14%), 2010/11: 207 offences, 3.76 per 1,000 residents

Any issues to consider
The good performance in 2012/13 needs to be considered against current comparisons to the previous year.

Performance Overview
Using YTD figures (83 at September 2014) there has been an overall increase of 2 SYV incidents reported (+2%) on the 81 reported at the same period last year.

Actions to Sustain or Improve Performance
- Consideration needs to be given to our good performance in 2012/13
- The gangs tactical meeting has been refreshed
- The gangs unit has been further integrated with IOM and Youth Offending Teams so they now come under one management route which will bring additional resources.
- MOPAC commissioned services are also signposting and referring appropriate individuals to address this issue.

RAG Rating: A
% Change compared to same time in the previous year (using YTD figures): B&D = Up by 2%, London = no % change. Rate per 1,000 Residents: B&D = 3.25
This places B&D 21 / 32 in the London Rankings. London average is 3.07 per 1,000 residents aged 1-19 years.
